

BioBrake

BioBrake is specifically formulated for brake parts cleaning. It is designed to dry quickly without leaving any residue. Use BioBrake to clean:

- > Brake linings
- > cylinders
- > drums
- > springs
- > clutches
- > disc brake parts
- > CV joints
- > Engine components

Environmentally Responsible!

- > VOC compliant
- > Non-toxic
- > Non-chlorinated
- > No CFCs

Replaces Solvents

Ideal for replacing hazardous and toxic solvents regularly used in the maintenance of:

- > automobiles
- > heavy trucks
- > city buses
- > subways
- > railcars
- > recreational vehicles
- > fork lifts
- > motorcycles & ATVs

Safe for Workers

BioBrake minimizes health risks to workers. Its unique formula does not contain hazardous, chlorinated solvents or toxic chemicals like methanol, xylene and toluene, common to other brake cleaning products.

Extra Strength Formula

BioBrake's extra strength formula and powerful spray, quickly and effectively removes:

- > carbon
- > brake fluid
- > brake dust
- > grease and oil
- > other tough contaminants

BioBrake is VOC Compliant

BioBrake contains no hazardous air pollutants (HAPs) and is fully compliant with government VOC requirements.

Users save considerable time and money because BioBrake is exempt from government VOC and HAP reporting requirements.

Additionally, BioBrake is free of CFCs that deplete the earth's ozone layer.

Available in Easy-to-Handle

- > 15-ounce aerosol cans (12 per case)
